

IMPORTANT NOTICE: RepairBASE Q3 Price Release

Due to the impact of COVID 19 along with all the devastating fires in the Western States and tariffs on wood from Canada, Lumber pricing has gone up dramatically, roughly 70% since April in most lumber based material items. We have made the necessary adjustments to the line items that contain lumber materials, these changes were made to keep up with the rapid increase in material costs. The team here will continue to monitor the lumber material costs closely.

In addition to the lumber costs you may see an increase in concrete line items pricing to reflect the uptick in material costs.

If you have any questions or concerns, please feel free to contact us.
